Job Evaluation (Classification)

Job Evaluation Systems

- A systematic process of determining the relative worth of jobs in an organization
- A Little History
 - Current system originally established in the 1970s
 - In use since
 - Currently there are over 2,800 individual classifications

Job Evaluation Systems

• Quantitative

Various factors are assigned points and a sum of those points give relative importance or weight to a job

Examples:

Point Factor

Factor Comparison

• Qualitative

Jobs ranked in order of their importance from simplest to the most complex

Examples:

Whole Job

Classification

Whole Job

- The State of Arizona currently uses the Whole Job method of evaluating/classifying jobs
- The current system was implemented in the early 1970s
- Modeled after other government classification systems (i.e., Federal, Military)

Whole Job Method

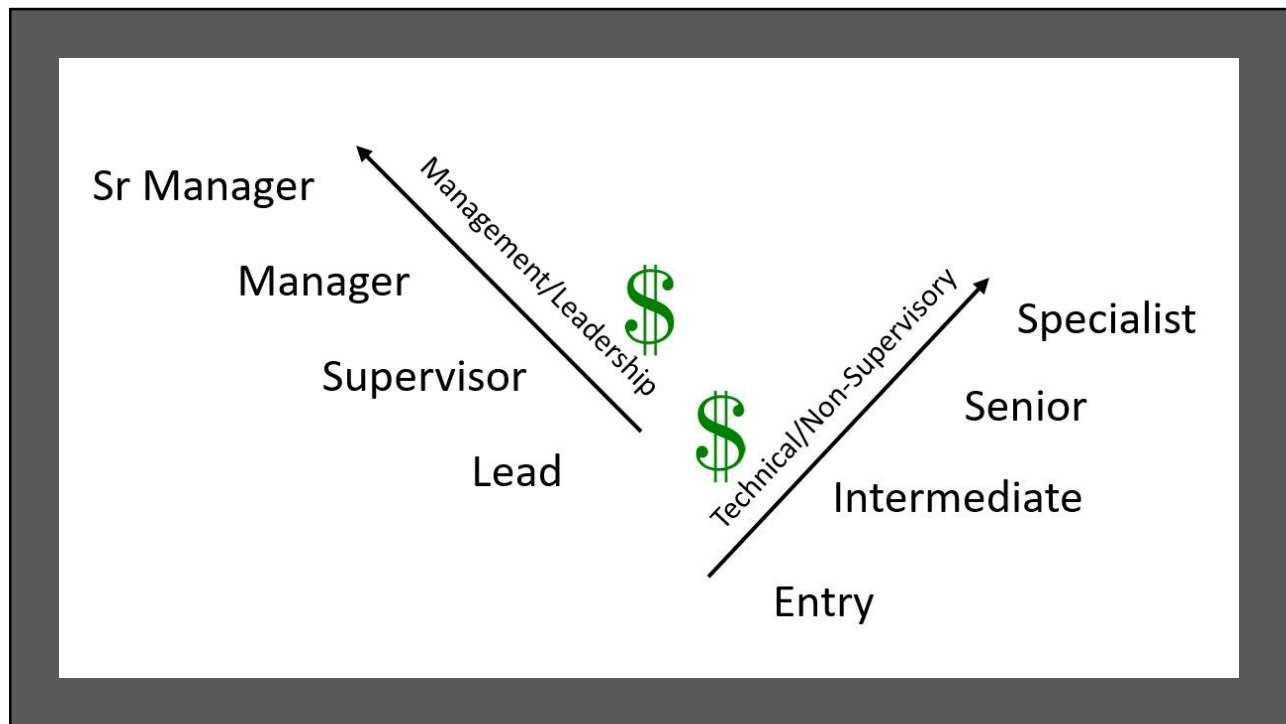

Simplest system to manage

Jobs are arranged in a hierarchy in order of their relative worth

Differentiation ≠ Discrimination

ARIZONA
DEPARTMENT OF ADMINISTRATION
HUMAN RESOURCES

Differentiation ≠ Discrimination

- Pay equity doesn't mean that two employees doing the same type of work must be paid the same. Businesses can pay different wages for the same type of work if the quality or quantity is different or if there's a merit system in place. The types of differences this allows for include things like experience, education and **individual performance**.
- Pay equity is what most people probably think of when they consider the term fair pay. It has legal backing by way of the Fair Pay Act and the Equal Pay Act and means that employees are paid equally for equal work done, without regard for race or gender.

Position Description (PD) Review/Analysis

- The following are some things that will NOT be used in determining a classification level of a position:
 - Length of time (years) employee has served in the position.
 - Higher than usual volume of workload.
 - Current employee is at the top of the pay range for the grade.
 - Outstanding or unusual qualifications of the current employee.
 - Employee is financially strained.

Position Description (PD) Review/Analysis

The following are some things that will be used in determining a classification level of a position:

- Supervision received or exercised.
- Working conditions
- Knowledge applied (used) on the job
- Work results/products
- Responsibilities and authority exercised
- Skills applied in the work

Comparison To Other Resources

- PD will be compared to relevant job specs (aka: classification specifications)
 - Review the job specs of the job family for fit
 - Review the requested job spec for level
- PD will be compared to other existing positions in the same class
 - If unsure of classification “fit,” review other PD’s or job specs in other classifications

Discuss Any Outstanding Issues:

What if the Classification Analyst does not agree with the requested job classification?

- Reporting relationship (Org charts are helpful tools for C/C)
- Position Description does not fit the requested job title (unique)
- Discuss with the requestor before allocating the position to a job classification

FLSA Designation (Exempt or Non-Exempt)

- FLSA Designation is designated according to the United States Department of Labor, Fair Labor Standards Act
 - Proper classification of employee positions, job titles and exempt status is critical. Employers must consider job duties and the impact that each job has on the company's management to determine whether certain positions are exempt. Exempt employees do not receive overtime pay.
 - **Employers who intentionally misclassify workers as exempt employees to avoid paying overtime are subject to stiff penalties, fines and awards of back pay to employees.**
- Exemption tests to determine FLSA designation include: Executive, administrative, professional, computer and outside sales

Approved PD information will be entered into HRIS

Data listed on the PD will be entered onto ZP02 (or XP02).

Please make sure information is submitted correctly including all coding. Otherwise, this will delay finalization of position.
